DETAILED ACTION

1. Claims 1-23 have been examined.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 1-16, drawn to rewarding a user for purchasing goods or services or interacting with advertising provided by a business, classified in class 705, subclass 14.
 - II. Claim 17-23, drawn to rewarding a user for a user achieving a user defined and user imposed goal, classified in class 705, subclass 14.

Inventions I, and II are based on different sets of Independent claims. Group I involves rewarding a user for purchasing goods or services or interacting with advertising by a business. Group II involves rewarding a user for a user achieving a user defined and user imposed goal.

Because these inventions are distinct for the reasons given above and the search required for Group I is different than the search required for either Group II, restriction for examination purposes as indicated is proper.

A telephone call was made to Samuel Sergio Tenembaum at (212)253-4308 on November 22, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3622

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant must respond in writing as to which Invention (Group I or Group II) the Applicant elects to be examined.
